

## Petroleum Products

At Maverick Energy DMCC, we are a leading provider of a comprehensive range of refined petroleum products, catering to the diverse needs of various industries across Dubai and the GCC region. With our five decades of global experience in the energy sector, we have established a reputation for delivering high-quality products that meet stringent industry standards and specifications.

Our extensive portfolio of petroleum products encompasses a wide array of applications, from fuels and lubricants to petrochemical feedstocks and specialty products. We understand the critical role these products play in various industrial processes and applications, and we are committed to ensuring reliable and efficient supply to our customers.

### Naphtha

Naphtha is a valuable petroleum product used as a feedstock in the petrochemical industry and as a solvent in various applications. Our naphtha products are meticulously refined and meet industry specifications, ensuring

- High purity and consistent quality for optimal performance in petrochemical processes.
- Low sulfur content and excellent solvent properties for effective cleaning and degreasing applications.
- Compliance with international standards like ASTM D3828 and EN 235.

### Lubricants

Our lubricant products are designed to provide superior performance and protection for various industrial and automotive applications. We offer a wide range of lubricants, including

- Engine oils (gasoline and diesel) for optimal engine performance and longevity.
- Gear oils and transmission fluids for smooth and efficient power transmission.
- Hydraulic oils and greases for reliable operation of hydraulic systems and equipment.

### Waxes

We supply high-quality waxes derived from petroleum for various industrial and consumer applications. Our wax products include

- Paraffin waxes for candle making, packaging, and coatings.
- Microcrystalline waxes for polishes, coatings, and lubricants.
- Specialized waxes for applications in rubber, plastics, and other industries.

### Solvents

Our solvent products are designed to meet the demanding requirements of various industries, including paints, coatings, inks, and cleaning applications. We offer a range of solvents, such as

- Mineral spirits and white spirits for thinning and cleaning applications.
- Aromatic solvents for use in paints, coatings, and adhesives.
- Specialized solvents tailored to meet specific industrial requirements.

### Petrochemical Feedstocks

As a reliable supplier, we provide high-quality petrochemical feedstocks essential for the production of various chemicals and polymers. Our feedstock products include

- Ethylene and propylene for the manufacture of plastics, fibers, and other petrochemical derivatives.
- Butadiene for the production of synthetic rubbers and elastomers.
- Benzene, toluene, and xylene for use in various chemical processes and applications.

### Safety Features

At Maverick Energy DMCC, safety is our top priority. Our petroleum products are handled with utmost care and adhere to strict safety protocols and industry best practices. We incorporate advanced safety features, such as static dissipater additives and specialized packaging, to mitigate risks associated with handling and storage.

### Supply Chain Logistics

With our extensive global network and strategic partnerships, we ensure reliable and efficient delivery of our petroleum products to industrial facilities and end-users across Dubai and the GCC region. Our dedicated logistics team oversees the entire supply chain, from sourcing and transportation to storage and distribution, ensuring timely and secure delivery of our products

### Environmental Considerations

Maverick Energy DMCC is committed to promoting sustainable practices and minimizing the environmental impact of our operations. We continuously explore opportunities to incorporate environmentally friendly processes and products into our portfolio. Our petroleum products are formulated to reduce emissions and comply with relevant environmental regulations.
