

Transportation Fuel

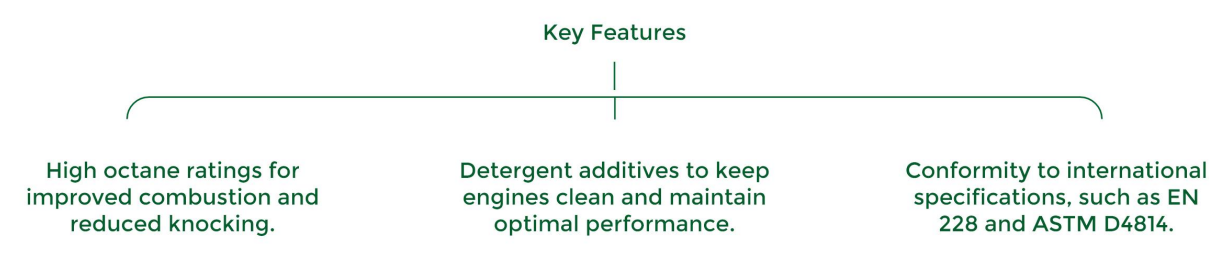

At Maverick Energy DMCC, we recognize the pivotal role that transport fuels play in keeping the world moving. With our five decades of global experience, we have established ourselves as one of the leading suppliers of high-quality transport fuels in Dubai and the GCC region. Our extensive product range caters to the diverse needs of the transportation sector, ensuring reliable and efficient fuel solutions for all types of vehicles.

We offer a comprehensive selection of transport fuels, including gasoline, diesel, and alternative fuels, each meticulously formulated to meet stringent industry standards and deliver optimal performance while minimizing environmental impact.

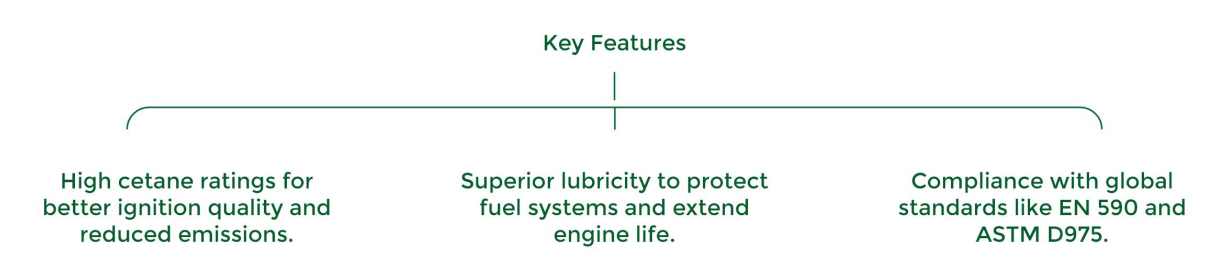

Gasoline

Our gasoline products are designed to provide superior engine performance and fuel efficiency for passenger cars and light-duty vehicles. Key features of our gasoline include:

Diesel

Our diesel fuels are engineered to meet the demanding requirements of heavy-duty vehicles, trucks, and commercial fleets. Our diesel products offer:

Alternative Fuels

Recognizing the growing demand for sustainable transportation solutions, we also offer a range of alternative fuels, including:

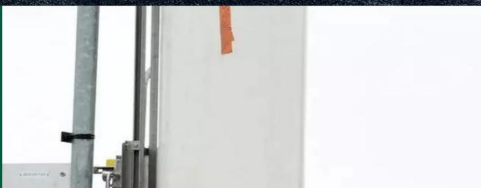

Fuel Specifications and Performance:

Our transport fuels undergo rigorous testing and quality control measures to ensure they meet or exceed industry specifications. We prioritize performance characteristics such as energy density, combustion efficiency, and cold-flow properties, ensuring reliable operation across diverse driving conditions and climates.

Emission Profiles and Environmental Impact:

At Maverick Energy DMCC, we are committed to promoting sustainable transportation solutions. Our transport fuels are formulated to reduce emissions and minimize environmental impact. We continuously explore opportunities to incorporate renewable and alternative fuel sources, contributing to a greener future for the transportation sector.
